Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submissions filed on 07 February 2006, 31 May 2006, and 16 June 2006 have been entered.

Allowable Subject Matter

2. Claims 15, 26, 47 and 58 are allowed.
3. The indicated allowability of claims 3, 4, 14, 25, 32, 46 and 47 is withdrawn in view of the newly discovered reference(s) to Brown et al, 6,551,174. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 3723

5. Claims 3, 4, 14, 25, 32, 46 and 57 are rejected under 35 U.S.C. 102(e) as being anticipated by Brown et al, 6,551,174. Please refer to figures 3A-3C. It is the examiner's position that the opening in **214** is an elongated valve slot, and that **212** is an elongated distributor slot. The edge of the elongated slot is a lip over which solution flows. As the distributor slot has an opening with a diameter, it can be interpreted that the opening is along the fluid conduit. Note also that the fluid is deposited in what can be considered first and second flows in first and second regions of the contact surface, concurrently, in that the valve when open directs flow over time that is deposited on different regions of the contact surface as it rotates beneath the dispenser. Note also that the dispenser pivots over the contact surface, figure 6.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to M Rachuba whose telephone number is 571-272-4493. The examiner can normally be reached on Monday-Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail can be reached on 571-272-4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
